org/2001/XMLSchema-instance" xsi:schemaLocation="http://enderio.com/recipes recipes.
xsd ">

<!--

These are the built-in capacitor definitions. You cannot change this file, it is a
reference for you only and will be generated every time the game starts.

To make changes to the capacitor definitions, copy the capacitors you want to change to
a file in the 'user' folder.

You can also disable all built-in recipes with the setting "loadCoreRecipes"
in the Ender IO config file, so that only your files in the 'user' folder will
be loaded.

More information on the syntax can be found in the recipes.xsd file. An
XML editor will display that as tooltips when editing this file.

 -->

  <!-- Inventory Chests don't take capacitors, so we use scaler=FIXED here. -->

  <capacitor key="enderio:block_inventory_chest_tiny/intake" base="10" scaler="FIXED"
